

HUMANITARIAN SOLUTIONS

Global Satellite Telecommunications

ENSURING ESSENTIAL COMMUNICATIONS ACCESS

WHEN DEALING WITH A CRISIS, HUMANITARIAN ORGANIZATIONS ARE USUALLY FACING BREAKDOWN OF CONVENTIONAL COMMUNICATIONS NETWORKS. THIS HEAVILY PREVENTS PROMPT RESPONSE TO DELIVER AID IN AFFECTED AREAS.

SATELLITE COMMUNICATIONS PROVIDE TO HUMANITARIAN TEAMS WITH RELIABLE AND RAPIDLY DEPLOYABLE SOLUTIONS WHEREVER THEY ARE LOCATED, EVEN IN THE MOST ISOLATED AREAS AND EXTREME CONDITIONS.

IEC TELECOM COUNT MANY HUMANITARIAN ORGANIZATIONS AMONG ITS CUSTOMERS AND IS PROUD TO SUPPORT THEIR OPERATIONS FOR MORE THAN 15 YEARS.

DEPLOY EFFICIENT MOBILE COMMUNICATIONS SOLUTIONS

When facing disaster recovery missions, humanitarian organizations have to quickly deploy complex logistics processes to manage teams to co-ordinate crisis relief.

IEC Telecom Group provides aid workers with a large panel of products and solutions that can answer to the emergency phase following any disaster or crisis: satellite phones, mobile devices to deploy Wi-Fi connectivity/ Bring your own device or portable & fixed modems.

Instant communications can be made thanks to lightweight and compact equipment, ensuring worker's maximum mobility and reactivity during crisis first response phase.

MANAGED END-TO-END SOLUTIONS FOR DISASTER RECOVERY

With our telecommunications solutions, aid agencies can consolidate their relief efforts over time, set up temporary office using semi-fixed modems such as BGAN or Thuraya IP+ and access corporate applications, manage logistics or even use low bandwidth videoconferencing solutions.

Multiple team members can share the same Wi-Fi connection using our 'Bring Your Own Device' solutions and benefit from prepaid vouchers for voice communications to stay in touch with their friends and family while being on the field.

DURABLE & ROBUST COMMUNICATIONS SYSTEMS

For long-term deployments and sustainable development missions, IEC Telecom Group can cover any specific need and offer high broadband data connectivity 'DSL-Like', so that your teams can access and share high data volume, get VPN connection, join videoconference, etc...

OptiLINK, our VSAT solution offer includes C-Band, Ku-Band and Ka-Band services, mobile, fixed or vehicular equipment and a large choice of options so that you get the right service and bandwidth according to your specific requirements and constraints.

All our equipments are made to last and designed to resist and remain operational even in the hardest climatic conditions so that you can rely on them durably.
