The demand for mobility and communications is rising with the advent of smart phones. This has changed the way we communicate, increasing the demand for innovative products that will keep us connected no matter where we are.

Thuraya satsleeve is a game changing product that will revolutionize the way we communicate. Introducing, the Thuraya SatSleeve - an industry first, which brings satellite communications to your smartphone for the first time ever.

The perfect blend of mobility and simplicity, the Thuraya SatSleeve broadens usage of iPhone or Android phone. It allows users to make calls and send SMS's in satellite mode. A dedicated emergency button provides users with instant communications from the most remote locations.

With High Penetration Alert, users will be able to receive calls and messages even with the SatSleeve's antenna retracted.

The SatSleeve is available in 2 versions:

SatSleeve with Voice only feature

SatSleeve with Voice & Data feature

KEY FEATURES

- Compatible with iPhone 4 and over (iPhone 5 cradle in option) and Android
- User-friendly SatSleeve application that allows integration with users' address book for satellite calls and SMS
- Convenient and easy to use for existing smartphone users, adventurers as well as corporate users
- SatSleeve app available for free from the Apple App Store in 12 languages
- Works like an smartphone cover (i.e. slip the iPhone into the SatSleeve) or via bluetooth
