GET SATELLITE CONNECTIVITY ON YOUR SMARTPHONE

The Thuraya SatSleeve Hotspot is a compact and lightweight satellite Wi-Fi hotspot. It provides users with voice and data connectivity on smartphones or tablet via Wi-Fi.

You remain connected wherever you go under the extended coverage of Thuraya's network. Even when you are on the move you can give phone calls, send text messages and use your smartphone apps no matter availability of local network.

Using Thuraya SatSleeve Hotspot means no more roaming charges! You benefit from a single rate over the 160 countries of Thuraya's network.

Easy to deploy, you just need to download the application from the App Store or Google Play and then get connected in few seconds.
