GO-ANYWHERE PRO EXPLORER 710

ULTRA-COMPACT COMMS-ON-THE-MOVE TERMINAL

Go-anywhere Pro Explorer 710 is an ultra-portable satellite broadband terminal that empowers users with real-time access to technical support, enables the exchange of emails, and supports VoIP calls. Operating over Viasat's L-band network, Go-anywhere Pro supports a High Data Rate (HDR) streaming service at speeds up to 650 kbps. It also comes with plug-and-play bonding capability to link with another Go-anywhere Pro Explorer 710 terminal to deliver streaming speeds up to 1 Mbps. The lightweight terminal easily integrates with your smartphone over the Explorer Connect app to enable phone calls and text messages as well as broadband access. Go-anywhere Pro Explorer 710 is perfect for dependable satellite communications over multiple interfaces.
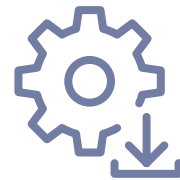

FEATURES

Reliable L-band connectivity

Global coverage

Plug-and-play bonding capability

Quick Start Guide

USE CASES

MEDIA
Elevate the quality of live broadcasts by connecting two ultra-portable and lightweight terminals with plug-and-play bonding capability. Easily integrate with the Explorer Connect app to quickly conduct phone calls and send text messages.

REMOTE WORKERS
Conduct high-quality video conferences with your remote teams over an ultra-portable terminal. Enable workers to send large files to HQ over a reliable satellite network.

TECHNICAL SUPPORT
Provide real-time access to technical support, enable the exchange of emails, and make VoIP calls on-the-move. Subscribe to IEC Telecom's optimised applications to enable an even wider range of services – videoconferencing, remote maintenance, and surveillance.
