

ACCESSORIES

BEAM ISATDOCK2 DRIVE

Vehicle docking station for superior
voice service

**ISATPHONE2 HANDSET
CHARGING**

**DEDICATED INTERNAL
GPS RECEIVER**

**SUPERIOR ECHO
CANCELLATION**

**TRACKING AND SOS VIA
ISATPHONE2**

**SLIM LINE COMPACT
INSTALLATION**

Especially designed for in-vehicle handsfree use, BEAM IsatDOCK2 Drive provides a high-quality semi-permanent installation for the IsatPhone 2. The docking station features in-built echo cancelling and full duplex technologies for voice services over both handsfree speakerphone and privacy handset.

BEAM IsatDOCK2 Drive enables Inmarsat IsatPhone2 handset charging, a USB data port, and in-built ringer. It supports a Personal Alert functionality via a single button press and can instantly send the GPS position as well as pre-configured messages via email. An optional privacy handset can be easily added to BEAM IsatDOCK2 Drive.

With a single button release, ignition sense, and horn alert functionalities, BEAM IsatDOCK2 Drive is the ideal docking station for on-the-move use.
