Versatile low cost docking cradle

**IRIDIUM 9555 HANDSET
CHARGING**

**IN-BUILT BLUETOOTH
CONNECTIVITY**

**READY-TO-USE ON LAND,
AT SEA, AND
ON-THE-MOVE**

**LOW COST DOCKING
CRADLE**

**SLIM LINE COMPACT
INSTALLATION**

Purpose-built for the Iridium 9555 handset, BEAM IntelliDOCK 9555 is a versatile low cost docking station. Supporting voice, SMS, Short Burst Data (SBD), and circuit-switched data, it can be used for maritime, vehicular, or fixed-site applications.

BEAM IntelliDOCK 9555 features Iridium 9555 handset charging as well as integrated antenna, data, and power connections to enable ready-to-use functionalities. With in-built Bluetooth connectivity, the docking cradle enables handsfree communications.

The Iridium 9555 handset can be easily inserted or removed at the press of a button and fits seamlessly into the BEAM IntelliDOCK 9555 docking cradle without the need to connect any additional cable.

CHARACTERISTICS

- Weight: 0.32 kg
- Dimensions: 200.5 x 74.4 x 68.0 mm
- Temperatures
 - Operational (°C): -20°C to +70°C
 - Charging (°C): 0°C to +40°C
 - Storage (°C): -30°C to +70°C
- Operating Humidity Range: <85% RH, non-condensing
- Power Consumption: 9-32 V DC, 12V average
- Integrated Bluetooth connectivity
- Integrated antenna connection
- Supports voice, SMS, SBD, and circuit-switched data
- Data Port (USB)

IN THE BOX

- IntelliDOCK 9555 Docking Cradle
- DC Power Cable
- RAM Bracket
- M4 Screw Set (4)
- Quick Start Guide
- User Manual
