BEAM DRIVEDOCK EXTREME

Handsfree dock for on-the-move use

**IRIDIUM EXTREME
HANDSET CHARGING**

**IN-BUILT ECHO
CANCELLING**

**HANDSFREE AND
COMPACT**

**TRACKING AND SOS VIA
IRIDIUM EXTREME**

**ROBUST DESIGN AND
CONSTRUCTION**

With in-built echo cancelling and full duplex technologies, BEAM DriveDOCK Extreme provides superior quality voice services for on-the-move use over the Iridium Extreme handset. The docking cradle supports both handsfree and privacy handset calls in vehicles and aircraft.

BEAM DriveDOCK Extreme features USB and serial data connectivity, Iridium Extreme handset charging, integrated antenna cables, and permanently connected power for ready-to-use functionalities.

Besides considerably extending the functionality of the Iridium Extreme handset, BEAM DriveDOCK enables the handset's complete SOS emergency and tracking features as well. Alongside ignition sense, BEAM DriveDOCK Extreme is an easy-to-install compact docking cradle.

CHARACTERISTICS

- Weight: 0.48 kg
- Dimensions: 212.0 x 83.0 x 76.0 mm
- Temperatures
 - Operational (°C): -30°C to +70°C
 - Charging (°C): 0°C to +40°C
 - Storage (°C): -35°C to +85°C
