

ONEMailPro

Email service for vessels with multiple users

Industry Use Cases

Shipping

Commercial Fishing

Offshore Sector

OneMailPro is an email management application intended for a corporate network with multiple users. Specifically designed for the maritime sector, OneMailPro is delivered as a secure, stable, cloud-based service for essential business communications.

OneMailPro is part of the **OptiSoft** application suite by IEC Telecom. OptiSoft offers a wide range of communication services optimised for the maritime sector, including email management, antivirus, data transfer, remote configuration and administration of vessels.

FEATURES

Airtime independent: available to work with any airtime supplier

Restarts from point-of-interruption: resumes data transfer from point-of-interruption if there is any break in communications

Flexible and agile: tailored to fulfil business-specific needs and works with any front-end client such as Outlook; also includes built-in webmail

Web dashboard: fleetwide remote management and configuration from a single dashboard; includes pro-active alerts and automated reports

One-click pre-configured install: allows for simple, fast, and remote setup; no need to send an engineer

Vessel tracking: allows to track the location of your vessels

Financial control: per vessel pricing with unlimited mailboxes to provide financial predictability

No additional hardware: software-only solution, engineered to work across current hardware

Selectable mail flow option: includes mailbox preview to allow important messages to be prioritised
