

FIXED

STARLINK

STANDARD MODEL

Powered by the world's largest constellation of low-earth orbit (LEO) satellites, Starlink delivers high-speed connectivity of up to 220 Mbps to support a wide range of digital operations. The low-latency network can connect to up to 235 devices and facilitate reliable access to corporate applications, conference calls, and video streaming. This cost-effective fixed-orientation antenna delivers dependable data service for home use as well as the enterprise and humanitarian sectors with significant land-based missions. With no long-term commitment, customers can avail month-to-month plans and even put the service on pause as required. Starlink transforms the online user experience, enabling a new level of infotainment and professional software.

SPECIFICATIONS

ANTENNA TYPE

Electronic phased array
Fixed orientation

WEIGHT

Antenna: 2.9 kg; 3.2 kg (with kickstand)
Router: 0.57 kg
Power Supply: 0.65 kg

DIMENSIONS

Antenna: 39.7 x 383 x 594 mm
Router: 43.3 x 298.6 x 120.4 mm
Power Supply: 35.75 x 93 x 173 mm

OPERATING TEMPERATURE

-30°C to 50°C

ENVIRONMENTAL RATING

Antenna: IP67 Type 4
Router: IP56
Power Supply: IP66 Type 4

WIND RATING

96 kph+

RADIO

Tri Band – 4x4 MU-MIMO

SECURITY

WPA2

WIFI

802.11 a/b/g/n/ac/ax

FIELD OF VIEW

110°

POWER

100 – 240V ~ 2.5A 50 – 60 Hz

RANGE

Up to 297 m²

TWO ETHERNET LAN PORTS

(with removable cover)

USE CASES

HOME USE

Quickly set up consistent broadband access with a permanent installation. Access a reliable link for clear video calls, online gaming, VPNs, and more.

ENTERPRISE

Access high-speed broadband connectivity with a month-to-month service plan to meet evolving business requirements. Protect private data with end-to-end encryption services.

HUMANITARIAN

Ensure quick connectivity for first responders with low-latency technology. Enable high-speed network access for long-term deployments at humanitarian camps akin to remote office operations.
